**Email:** rajratnasalve2211@gmail.com
**Phone:** +91 86258 28705
**LinkedIn:** linkedin.com/in/rajratna-salve-0a704a203

## SUMMARY

AI and Data Science student with a strong foundation in Python, SQL, and web technologies. Certified in Microsoft Azure AI Fundamentals (AZ-900) and Oracle Cloud Infrastructure Data Science. Experienced in mechatronics engineering and industrial automation with hands-on exposure to robotics, quality assurance, and predictive analytics. Passionate about building AI-driven solutions and contributing to innovative technology projects.

## SKILLS

**Technical Skills:** Python, SQL, HTML/CSS, TensorFlow, Pandas, NumPy, Git, Microsoft Word, Excel, PowerPoint

**Tools & Platforms:** VS Code, PowerBI, Tableau

**Generative AI:** Prompt Engineering, RAG, Embeddings, FAISS

**Analytics & Business Skills:** EDA, Data Visualization, Statistical Analysis, Data-Driven Decision Making

## EDUCATION

**AISSMS Institute of Information Technology** **2023 – 2026**
Bachelor of Technology in Artificial Intelligence and Data Science *(CGPA: 7.63)* Pune, India

**Sanjivani K.B.P. Polytechnic, Kopargaon** **2020 – 2023**
Diploma in Mechatronics Engineering *(Percentage: 84.00%)* Ahilyanagar, India

## EXPERIENCE

**Mechatronics Intern | Metalman Auto Pvt. Ltd.** **Feb 2023 – Jun 2023**

- Assisted in operating and monitoring industrial robotic systems to support automated production and ensure uninterrupted manufacturing operations.
- Performed quality assurance and inspection activities by identifying defects, maintaining quality standards, and supporting continuous process improvement.

## PROJECTS

**AI-Based Harassment Detection System Using CCTV Footage | Python, OpenCV, YOLO, MediaPipe, OpenAI Whisper**

- Developed an AI-powered real-time surveillance system that detects physical violence using YOLO and MediaPipe Pose while identifying verbal harassment using OpenAI Whisper and NLP-based toxicity classification.
- Implemented live CCTV monitoring, automated alert generation, event logging, and an interactive Streamlit dashboard to improve incident detection accuracy and enable faster security response.

**House Price Prediction | Python, Pandas, NumPy, Seaborn, Linear Regression**

- Built a regression model to predict house prices using important real-world features.
- Performed exploratory data analysis and feature correlation analysis to improve model accuracy and interpret pricing trends.

## PUBLICATION

**Advancing Media Integrity through AI-Powered Fake News Detection**

- Designed an ML system to detect and classify misinformation using linguistic and source-based features.
- Contributed to the publication titled *A Multimodal AI-Based System for Real-Time Harassment and Violence Detection Using Surveillance Cameras.*

## CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AZ-900)
- Oracle Cloud Infrastructure 2025 – Data Science Professional (Certified)
- Deep Certificate in Python Programming – MKCL (120 Hours, Score: 90/100, Credit Level 4.5)
- Diploma in Mechatronics Engineering – Sanjivani K.B.P. Polytechnic, Kopargaon

## OTHER INFORMATION

**Languages Known:** English, Hindi, Marathi
